Missing column Level, TrkT, GS and Dist on PC version of Skydemon after new installation in August 2019

My configuration:
Windows 10 professionnel - Version 1903, system 18362.295

Skydemon PC 3.12.8.0.

RNav	Position	MSA	TAS	TrkM	Wind	HdgM	Dist	Time	FuelR	ETA	ATA
LSE 310/10	N455125 E0045448	2300	110	350	168/05	351	7.7 (7.7)	5 (5)	100.5	08:05 Z	

But before, see below what I have,

you can see level, TrkT, GS and Dist

RNav	Position	MSA	Level	TAS	TrkT	TrkM	Wind	HdgM	GS	Dist	Time	FuelR	ETA	ATA
LSE 240/12	N453859 E0045026	2300	2400	110	221	219	356/11	224	101	6.3	4	101.1		

But On Android version, there more settings than on PC version

French configuration on my Android phone
